Experienced in building, testing, and deploying high-quality mobile applications. Strong problem-solving skills with a passion for learning and implementing new technologies. Excellent team player with effective communication skills and a commitment to continuous improvement.

EXPERIENCE (21 MONTHS)

Mountreach Solution Pvt Ltd. (Full Stack Android Developer)
Amravati-Maharashtra
July 2023 - April 2024

PROJECTS

Status Saver For WA & Business WA

- Status Saver for WA & WA Business lets you view and download WhatsApp and WhatsApp Business statuses easily. Save photos and videos, and send messages directly using just a mobile number, no need to save contacts. Essential for efficient communication and media management.

Bachelor Helper

- Bachelor Helper is essential for students of all streams, offering a vast library of textbooks for easy reading and downloading. Effortlessly access academic resources, add bookmarks, and take notes to enhance your study experience. Simplify your academic journey with Bachelor Helper.

Google Map Attendance

- Google Map Attendance uses Google Maps API to take attendance only from the exact classroom location, storing data in Firebase. With a clean UI, it ensures students are present and integrates face detection for secure submissions.

Earning Quiz

- Earning Quiz features 15+ quiz subjects and a login system. Users can spin the wheel to earn coins and test their knowledge across various topics. Play, learn, and earn rewards with Earning Quiz!

Diploma Helper

- Diploma Helper offers materials for all diploma streams, integrated with a ChatGPT bot, subject quizzes, course videos, results, and a login system with a MySQL database. Access comprehensive features for optimal learning.
